PROFESSIONAL SUMMARY

CSE student (Data Science, AI & ML) with a 3.85 CGPA, graduating 2026. Builds full-stack apps, database systems, and computer graphics projects; co-author of two papers under review. Also keenly interested in the research sector, with hands-on experience in peer-reviewed work and an ongoing thesis in applied AI.

EDUCATION

Bachelor of Science in Computer Science & Engineering (Major: Data Science, AI & ML) | *Expected Graduation: 2026*
American International University-Bangladesh (AIUB) | CGPA: 3.85/4.00
HSC & SSC — BAF Shaheen College Kurmitola | GPA 5.00 (2021), GPA 5.00 (2019)

THESIS

Assessing Script Integrity, Performance Degradation, and Energy Efficiency in Quantized Bangla Large Language Models | *Ongoing*
Domain: Artificial Intelligence
Supervisor: Dr. Nazib Abdun Nasir

TECHNICAL SKILLS

Languages: Python, Java, C, C++, C#, JavaScript, R, SQL
Web & Databases: HTML5, CSS3, PHP, REST APIs, AJAX, MySQL, MS SQL Server, Basic MERN Stack
Tools & Concepts: Git, GitHub, .NET, WinForms, OOP, Data Structures & Algorithms, Machine Learning, Computer Graphics

PROJECTS

Computer Graphics Scenic View Renderer — C++, OpenGL, GLUT
- Developed a 2D/3D graphics application using GLUT functions to render an interactive scenic view combining urban, river, and village landscapes.

Real-Time Decentralized Crime Reporting & Incident Management System — HTML, CSS, JavaScript, PHP, AJAX, REST APIs
- Built a platform for secure citizen incident submissions with real-time authority monitoring and REST API/AJAX-based live updates.

Café Management System — C#, .NET, WinForms
- Built a desktop application for billing, menu management, order tracking, and inventory using OOP principles.

Hospital Management System — Java
- Developed a modular application for patient records, doctor scheduling, and appointments.

Library Management System — MySQL
- Engineered a database-driven system for managing books, issuing records, and fines with optimized SQL queries.
